PORTABLE VETERINARY ULTRASOUND

IBEX® EVO III BY E.I. MEDICAL IMAGING

EVO III

Portable colour Doppler ultrasound for every species

Build the system your practice needs. Choose from interchangeable broadband transducers, from rectal and OPU to tendon and small animal, on a bright 8.4″ sunlight-readable display that goes from clinic to barn to field.

Interchangeable probes, 2–14 MHz

Colour, Power and Pulsed Wave Doppler

EVOStream™ Wi-Fi streaming

STARTING AT

EVO III scanner
Probes $8,290 each

$18,995

8.4″
Sealed, sunlight-readable, 1200 nits

3+ h
Field-swappable battery

2.9 kg
6.4 lb, built to go anywhere

−20 °C
Designed for cold, tough conditions

www.viisona.com · 1-800-672-9182

Ideal for

Horses, cattle, small ruminants, camelids, dogs, cats, zoo animals and wildlife.

ADDITIONAL APPLICATIONS

Mixed, equine and companion animal practices, embryo transfer, research and zoos.

01	Bovine and equine reproduction
02	Ovum pick-up (OPU) and follicle reduction
03	Equine tendons, neck and back
04	Companion animal abdominal exams
05	Bovine carcass merit
06	Blood flow with Colour, Power and PW Doppler

Breakthrough image quality, anywhere

Build your configuration

The only system in the IBEX family with interchangeable, detachable probes. Choose the broadband transducers you need, from 2 to 14 MHz, and swap them in seconds.

Full Doppler package

B, B+M, Power Doppler, Colour and Pulsed Wave Doppler for corpus luteum, vascular and blood-flow assessment.

Bright in any light

8.4″ sealed LED display, 3× brighter than the original EVO (1200 nits). Add the magnetic sunshade or i3 LED goggles for bright sun.

Stream and control remotely

EVOStream™ sends live studies to phones and tablets. The Bluetooth remote's 7 programmable keys control gain, depth, save and record.

Rugged and bio-secure

DuraScan® technology, splash resistant and a sealed keyboard you can clean thoroughly. Probe cables tested to 1.2 million flex cycles.

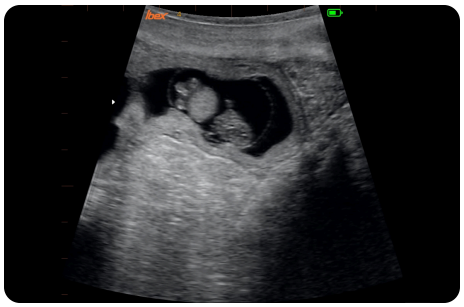

Always up to date

Firmware updates for the life of the system, veterinary-specific presets, on-board help, DICOM and full patient image management.

Build your configuration

Prices start at the amounts below. Your final price depends on the probes and accessories you choose. Ask us for a quote built around your practice.

ITEM		STARTING PRICE
EVO III scanner (probe sold separately)	Choose one or more probes	**$18,995**
Broadband transducers	Each, all models except OPU	**$8,290**
eC9OPU ovum pick-up probe and handle	Transvaginal, needle-guided	**$14,290**
i3 LED binocular goggles	For bright sun and reflective conditions	**$3,040**

Probe options

Broadband, variable-frequency transducers with 128 crystals, designed specifically for animals. Select at least one probe with your EVO III.

REPRODUCTION

eCLi6 · Hybrid curved linear, rectal — 3–9.5 MHz
Bovine and equine repro and lungs; to 24 cm

eL7 · Linear rectal — 5–9 MHz
Ovaries, early pregnancy, calf lungs; to 15 cm

eCLi4 · Curved array — 3–7 MHz
Large animal repro and abdomen; 6–25 cm

eC9OPU · Ovum pick-up probe and handle — 5–10 MHz
Transvaginal OPU, follicle reduction, biopsy; to 14 cm

ABDOMINAL & SMALL ANIMAL

eCL3 · Macro convex — 2–5 MHz
Transabdominal: cattle, horses, small ruminants, camelids, large dogs; to 30 cm

eC6 · Micro convex — 4–9 MHz
Sheep, goats and large dog abdomen; 3–18 cm

eC9 · Micro convex — 5–10 MHz
Small animal exams; to 14 cm

eMC8 · Micro convex
Small animal examinations

TENDON & CARCASS

eL14 · Linear — 6–14 MHz
Equine tendons, small animal abdomen, superficial structures; to 10 cm

eL3AS · Linear — 3–6 MHz
Bovine carcass merit; to 30 cm

> *"We are able to increase oocyte counts by at least 11% and as high as 35% from some technicians by only changing the ultrasound in our process."*
>
> **Nathan Schmidt, DVM, Repro Director, Vytelle · EVO for OPU**

The set includes

- EVO III scanner
- Field-swappable lithium-ion battery
- AC adapter and power cord
- EVOStream™ Wi-Fi streaming apps
- Flash drive
- Custom hard case

Optional accessories

- i3 LED goggles
- Magnetic sunshade
- Bluetooth remote
- Wi-Fi transmitter, video splitter
- I.C.E.® extension arms for rectal probes
- External battery charger (AC or car)
- Waist pouch, harness with strap clips

Technical data

Imaging modes	B, B+M, Power Doppler, Colour Doppler, Pulsed Wave Doppler
Frequency range	2–14 MHz broadband (probe dependent)
Transducers	Interchangeable: eCLi6, eL7, eCLi4, eCL3, eC6, eC9, eMC8, eL14, eL3AS, eC9OPU
Display	8.4″ sealed, sunlight-readable LED, 1200 nits
Controls	Sealed keyboard; optional Bluetooth remote with 7 programmable keys
Presets	Veterinary-specific exam presets; customizable presets and annotations
Streaming	EVOStream™ Wi-Fi image streaming to mobile devices
Data	DICOM compatible; full patient image management system

Viewing options	Screen, optional video headsets, sunshade
Battery	Field-swappable lithium-ion, 3+ h (configuration dependent); external charger dock, AC or car
Weight	6.4 lb (2.9 kg)
Construction	DuraScan®, splash resistant, RoHS compliant; designed for cold environments down to −20 °C
Cables	Kevlar-reinforced, tested to 1.2 million flex cycles; repairable
Software	Firmware updates for the life of the system; context-sensitive on-board help
Species	All species
Made in	Designed, manufactured and supported in Colorado, USA

Technical service & support in Canada

Authorized service technicians

Our authorized service technicians maintain and repair your IBEX equipment here in Canada, with full technical service from our Montreal-area office.

Loaner systems

If your scanner needs service, we can lend you a replacement system so your practice keeps working without interruption.

New trade-in program

Trade in your current ultrasound system and trade up to a new IBEX system. Ask us for a trade-in evaluation.

Trade in. Trade up.

Ask us what your current system is worth toward an upgrade.

Flexible financing

Lease and financing options are available. Ask us for terms that fit your cash flow.

Manufacturer warranty

1-year manufacturer warranty · extended warranties available
